INTEGRITY AND COMPLIANCE PLAN

I. Introduction

Innovative Health Alliance of NY, LLC (IHANY) was formed as an Accountable Care Organization ("ACO") to participate in the Medicare Shared Savings Program ("MSSP"). The Centers for Medicare and Medicaid Services ("CMS") established the MSSP to facilitate coordination and cooperation among providers to improve the quality of care for Medicare Fee-For-Service beneficiaries while reducing inefficiencies and unnecessary costs.

CMS regulations require MSSP ACO's to have a compliance plan that meets certain minimum elements as specified in §425.300, the Compliance Plan provisions of the MSSP regulations. This document summarizes the structure and core elements of IHANY's Integrity and Compliance Plan that address each MSSP regulation.

II. Policy Statement

IHANY is committed to conducting its affairs in accordance with the highest ethical standards and in full compliance with the all applicable federal and state laws and regulations. To this end, IHANY will establish and operate an effective Integrity and Compliance Program designed to detect, correct and prevent incidences of non-compliance with applicable federal and state statutes, regulations, and rules, including, but not limited to, incidences of fraud, waste, and abuse relating to the MSSP and federal health care programs.

III. Integrity and Compliance Program Elements

1. Designated Integrity and Compliance Official (§425.300(a)(1))

- a. IHANY will designate an Integrity and Compliance Official with responsibility for oversight and operation of IHANY's Integrity and Compliance Program.

- b. The Integrity and Compliance Official will report directly to the IHANY Board of Directors on the operations of the Integrity and Compliance Program, including the nature and status of any material compliance issues or other matters identified affecting IHANY.
- c. The Integrity and Compliance Official will not serve as legal counsel to the ACO.

- a. IHANY will contractually require its employees, contractors, providers/suppliers and any other individuals or entities performing functions or services related to IHANY activities (hereinafter referred to as "Participants") to comply with the requirements of the Integrity and Compliance Program described herein.
- b. IHANY and its Participants will comply with all applicable federal and state laws, regulations and rules, CMS instructions and guidance, including but not limited to: (a) federal criminal law; (b) the False Claims Act (31 USC 3729); (c) the anti-kickback statute (42 USC 1320a-7b(b)); (d) the civil monetary penalties law (42 USC 1320a-7a); (e) the physician self-referral law (42 USC 1395nn); (f) the MSSP regulations (42 CFR Part 425); and (g) all requirements specified in [ACO NAME]'s MSSP Agreement with CMS (collectively, "Requirements").
- c. All providers participating in the Medicare program are required by law to maintain a compliance program as a condition of enrollment in federal health care programs. Accordingly, each Participant provider organization will maintain a compliance program to detect, correct and prevent incidents of non-compliance with Requirements as applicable to the activities of the Participant. Such compliance program will be appropriate to the Participant provider organization's size and scope of operations and consistent with existing compliance program regulations and guidance issued by federal agencies.

3. Identification, Monitoring and Remediation of Compliance Issues (§425.300(a)(2))

- a. IHANY will establish procedures to monitor and review all bulletins, transmittals and other publications issued by CMS and its contractors relevant to IHANY and its participation in the MSSP and will implement changes in systems, policies and procedures, as required, to maintain IHANY's compliance with laws, regulations and guidance applicable to its operations.

- b. IHANY will conduct periodic audits and reviews to assess specific risk areas related to IHANY's operations and performance, including compliance with MSSP requirements and areas identified through the annual risk assessment process. IHANY may conduct such audits independently or in conjunction with ACO Participants, and may rely upon applicable compliance reviews conducted by ACO Participants. IHANY Participants are required to fully cooperate in the performance of such audits, including providing requested information in a timely manner.

Appropriate discipline, remedial processes and penalties, up to and including termination of participation in IHANY, will be taken.
